Dedicated to Michael Jackson

*We cannot be racist with where a Saint come from.
Usually they come from religious parties, sometime they come from art.
We cannot decide "what is art": painting, poetry, music, dance and
many other crafts that are made with body, soul and mind can be Art.
There it is : Michael to me has been as much inspiring as
Philosophers, Saints or Spiritual Guides.
His music and his dance definitely healed many wounds of my soul
and he showed me the way I can live with my fragility,
my sensitiveness and my creativity...
Thank You Michael, you healed my world !*

This calendar is a tribute to all asanas, mantra and spiritual practices that I wish to share with you all along 2012, for a better practice and for a better world. With love Om Shanti your Janine Claudia Nizza
